

ASTR 1020: Stars & Galaxies

February 15, 2008

- *MasteringAstronomy* Homework on The Properties of Stars is due Feb. 18th.
- Reading: Chapter 15, section 15.2.
- Meet at Fiske Planetarium for class on Feb. 15th.
- Exam 1 – Wednesday, Feb. 20th; Chapters 1, 4, 5, 14, 15.

How do we get a good picture of what our Milky Way galaxy looks like?

- Use infrared or microwaves to penetrate the dust
- Use radio telescopes to see where clouds of hydrogen gas are
- Take photos from both the top and side to get a good view
- All of the above
- 1 and 2

How do we get a good picture of what our Milky Way galaxy looks like?

- Use infrared or microwaves to penetrate the dust
